THE PRESIDENTIAL NOMINATION.

The 2d of June is not far distant, and though the nominee of the Chicago Convention can not yet be predicted with certainty, as many States have declared their preference that it is not a difficult matter to speculate as to the ultimate result. From the States that have already declared their choice we figure as follows:

	Grant.	Blaine.	Sherman.	Edmunds.
Arkansas	12			
California		12		
Connecticut	4	6		2
Georgia	2	12	6	
Iowa		22		
Kansas		10		
Kentucky	24			
Maine		14		
Massachusetts				26
Missouri	30			
New York	70			
North Carolina	3		17	
Ohio			44	
Oregon		6		
Pennsylvania	58			
Rhode Island		8		
South Carolina	14			
Texas	8	8		
Vermont				10
Virginia	22			
Washington Territory		2		
Utah		2		
District of Columbus		1	1	
Total	253	97	68	8

We count Alabama with 20, Illinois 19, Louisiana 16, Tennessee 20, for Grant. These 75 added to his 253 give him 328 votes on the first ballot, and that is above rather than below the correct estimate. For Blaine, in addition to the 97, we can count Colorado 6, Delaware 6, Illinois 21, Indiana 28, Maryland 16, Michigan 22, Minnesota 10, Nebraska 6, Nevada 6, New Hampshire 10, New Jersey 10, West Virginia 10, Wisconsin 20, Dakota 2, Idaho 2, Arizona 2, New Mexico 2, Wyoming 2, which assures him 278 votes on the first ballot. Sherman say, has Ohio 44, North Carolina 17, New Jersey 6, Florida 8, and enough others to give him 85 votes. Edmunds' vote will be 40. But Blaine has an excellent show to receive votes from New York, Pennsylvania and Ohio, enough probably to nominate him if not on the first, more than likely on the second ballot. If the Blaine men in the Pennsylvania and New York delegations will vote for him on the first ballot, and thus decrease Grant's showing, it is not likely that Grant will be able to recover lost ground. And if Grant can not be nominated on the first ballot he is out of the fight. The Grant votes cannot be thrown solid against Blaine, and believing this we think the chances are very much in favor of Blaine being nominated on the second ballot, even should he not receive it on the first.

John Hickman, one of the "cattle kings" of Colorado, ran through a sleeping car on the Kansas Pacific railroad the other night, and, with a long knife in his right hand, slashed away at the passengers in the upper berths. He had been attacked with a temporary fit of insanity. The train men were obliged to tie the millionaire hand and foot.

A general bankrupt law, which will protect the rights of creditors, prevent injustice to debtors, and promote the interests of the business community, is unquestionably needed, yet Congress is doing nothing towards framing and passing such a law. President-making is the bewitching occupation of our national law makers just now.

The product of the Leadville mines for the fifteen months ending April 1st was $16,147,131. The product of the same mines for the first quarter of 1880, included in the above figures, was $3,722,398, of which $581,788 was for lead, $11,435 for gold, and $2,650,-014 for silver.

And now a Washington correspondent says Mr. Hayes is very close in money matters; spends but little on his table; entertains but few friends; and that he will carry to his home in Ohio at least $150,000 out of his four years' salary.

J. H. Graham, present City Attorney of Virginia City, was defeated for renomination in the late Democratic City Convention, and is out in a card, and also announces himself an independent candidate for the position.

Theodore Tilton offers his Brooklyn house for sale, the price being $9,000. It has two bow windows and a $7,500 mortgage.

The Government now has the sword of Washington, the cane of Franklin, the desk of Jefferson. Precious treas-

JEFFERSON'S DESK.

The other day the Speaker laid before the House a message from the President informing Congress that Mr. J. R. Coolidge, Algernon Coolidge, Thomas Jefferson Coolidge and Ellen Dwight, heirs of the late Joseph Coolidge, Jr., desiring to present the desk on which the Declaration of Independence was written by Thomas Jefferson, and transmitting a letter from Mr. R. C. Winthrop expressing the wish of the donors to offer it to the United States that it might have a place in the Department of State in connection with the immortal instrument that was written upon it. Mr. Crapo, of Massachusetts, then offered the following resolutions:

Resolved, That the thanks of this Congress be presented to J. R. Coolidge, Algernon Coolidge, Thomas W. Coolidge and Ellen Dwight, of Massachusetts, for their patriotic presentation of the writing desk presented by Thomas Jefferson to Joseph Coolidge on which the Declaration of Independence was written.

Resolved, That this precious relic be accepted in the name of the nation, and that the same be deposited for safe keeping in the Department of State.

Resolved, That a copy of these resolutions, signed by the President of the Senate and Speaker of the House, be transmitted to the donors.

After eloquent speeches in favor of the resolutions by Mr. Crapo and Mr. Tucker, of Virginia, they were unanimously adopted. Corresponding action was taken in the Senate, where speeches were made by Senators Dawes and Johnston.

THE GENEVA AWARD BILL.

Sketch of the Debate in the Senate Honors Carried off by Mr. Blaine.

[Washington (Cor.) Herald.]

The Judiciary Committee surprised the Senate to-day by suddenly moving to lay the Geneva Award bill on the table, which means to shelve it, and the Senate, apparently as tired as Messrs. Thurman and Eaton of the debate, consented to the demand. Mr. Thurman has not been fortunate with the bill, and it was evident early to-day that he and the committee on whose behalf he reported it were beaten. The debate has been thorough and able, but the honors of it, in the opinion of Senators generally, have been carried off by Mr. Blaine. Indeed, it was evidently to put a check to his victory that Mr. Thurman abandoned the bill. It is the first time since his accession to the Senate that Mr. Blaine has had occasion to take a conspicuous part in an important debate—one which interested the whole Senate—and, if the conversation of leading Senators may be trusted, he has succeeded in surprising them by his ability in statement, his ready and accurate command of facts and precedents and the effectiveness with which he has met the attacks which were directed at him with a good deal of persistency by Messrs. Thurman and Carpenter and some others, but these two in particular. Mr. Carpenter suffered severely at Mr. Blaine's hands and Mr. Thurman did not gain anything in the debate. Mr. Bayard, on the whole, is thought to have come off the best of those who engaged the Maine Senator. Mr. Carpenter has not been fortunate at this session. His famous demand for the re-election of the ex-President as the only man who could "properly discriminate between virtue and vice" caused him to be laughed at even by the other third term Senators, to whom it had not occurred until then that this was the ex-President's strong point, and that they wanted him in the White House for precisely this purpose, and in this debate his contemptuous declaration that Mr. Blaine was "not a lawyer" was met so well by the Maine Senator that this crime will hardly be urged against him again. The lawyers of the Senate say that he was at least as well up in the law of the case as Mr. Carpenter. The Senate is a body of lawyers, some great and many small, and the great ones, while they know very well the important advantage their special knowledge gives them are not so quick as some of the small lawyers to despise those who are not of their profession. It was hoped at one period of the debate that Mr. Conkling would come to the rescue of Mr. Carpenter, and a report that there was likely to be an engagement between Messrs. Conkling and Blaine drew a crowd to the galleries, but the expected battle did not come off.

Is the Pacific ocean higher than the Atlantic? A dispute on this question having arisen, the editor of the Scientific American was asked to decide. One argued that the Pacific was higher, and that if a canal were cut through the Isthmus an immense current from the Pacific to the Atlantic would result. The answer given was that there was no difference of level between the oceans at mean tide. The tides on the Pacific side are about three feet, but on the Atlantic side they are five or six times as great.

At the age of 17 E. B. Washburne was apprenticed to the printer's trade in the office of the Christian Intelligencer at Gardiner, Maine. "I am satisfied," said Mr. Washburne, at a later period, "that I learned more in the one year I was in the Intelligencer office than I ever learned in any one year of my life." More what?

Bullion shipments from the Comstock mines on the 27th were as follows:

Tilden's black eye is now said to be

BLAINE VS. GRANT.

The New York Tribune of yesterday says: "Yesterday was Blaine's day. The California Republican Convention is reported to have been unanimous for him, and the delegates were instructed to act as a unit. This means 12 votes for Blaine in the Chicago Convention and is an index of the unanimous Blaine sentiment of the Pacific coast. The Blaine sentiment among South Carolina delegates, which was known to exist before the convention met, is making itself heard. Dispatches received late Wednesday night gave Grant and Sherman each 5 delegates and Blaine 4, but it was said all would no doubt obey their instructions, which were to vote as a unit for Grant. The Blaine Club in Washington now has advices that six of the delegates will support the Maine Senator from the beginning. The wish may be father to the expectation, but in any event the moral effect of a solid delegation is destroyed. The results of the Maryland Republican primaries show that the Blaine men control fifteen counties out of twenty-four, and will of course do what they please with the State Convention. One effect to all this is the election of an instructed Grant delegation from Arkansas. This brings 12 votes to the Grant column, which is headed by ex-Senators Dorsey and Clayton, who liked the first and second terms well enough to be anxious for a third."

CATARRH

IS IT CURABLE?

THOSE who have suffered from the various and complicated forms of disease assumed by Catarrh, and have tried many physicians and remedies without relief or cure, await the answer to this question with eager anxiety. And well they may; for no disease that can be mentioned is so universally prevalent and so destructive to health as Catarrh. Bronchitis, Asthma, Coughs, and serious and frequently fatal affections of the lungs follow, in many instances, a neglected cold or simple but neglected Catarrh. Other sympathetic affections, such as deafness, impaired eyesight, and loss of sense of smell, may be referred to as minor but nevertheless serious results of neglected Catarrh, but enough in themselves, but as nothing compared with the dangerous affections of the throat and lungs likely to follow.

IT CAN BE CURED.

IT can be cured. There is no doubt about it. The immediate relief afforded by SANFORD'S RADICAL CURE FOR CATARRH is but a slight evidence of what may follow a persistent use of this remedy. The hard, incrusted matter that has lodged in the nasal passages is removed, with a few applications; the ulceration and inflammation subdued and healed; the entire membranal linings of the head are cleansed and purified. Constitutionally its action is that of a powerful purifying agent, destroying in its course through the system the *acid poison*, the destructive agent in catarrhal diseases.

A COMPLICATED CASE.

Gentlemen.—My case is briefly as follows: I have had catarrh for ten years, each year with increasing severity. For nine years I had not breathed through one nostril, had droppings in the throat, a very bad cough, asthma so bad as to be obliged to take a remedy for it at night before being able to lie down and sleep, and a constant dull pain in my head. My head was at times so full of catarrhal matter as to injure my sense of hearing and compel me to get up several times in the night to clear it and my throat before I could sleep. Every one of these distressing symptoms has disappeared under the use of not quite three bottles of SANFORD'S RADICAL CURE. My hearing is fully restored. I have no asthmatic symptoms, no cough, no dropping in the throat, no headache, and in every way better than I have been for years. I could feel the effects of the CURE on my appetite, on my kidneys, and, in fact, every part of my system. What has been done in my case is wholly the effect of the RADICAL CURE. Very respectfully,

FITCHBURG, Oct. 14, 1879. C. H. LAWRENCE.

Indorsed by a Prominent Druggist.

I hereby certify that Mr. Lawrence purchased the RADICAL CURE of me, and from time to time made me familiar with his case. I believe his statement to be true in every particular.

DR. WM. HALL'S BALSAM

Cures Colds, Pneumonia, Bronchitis, Asthma, Croup, Whooping Cough, and all diseases of the Breathing Organs. It soothes and heals the membranes of the Lungs, inflamed and poisoned by the disease, and prevents the nightsweats and tightness across the chest which accompany it. CONSUMPTION is not an incurable malady. It is only necessary to have the right remedy, and HALL'S BALSAM is that remedy. DON'T DESPAIR OF RELIEF, for this benign specific will cure you, even though professional aid fails.

Dr. M. H. Hinsdale,

Kewanee, Ill., advises us of a remarkable cure of Consumption He says:

"A neighbor's wife was attacked with violent lung disease, and pronounced beyond help from Quick Consumption. As a last resort the family was persuaded to try HALL'S BALSAM. To the astonishment of all, by the time she had used one-half dozen bottles she was about the house doing her own work. I saw her at her worst stage, and had no idea she could recover.

Internal derangements are the determination of these same humors to some internal organ or organs, whose action they derange, and whose substance they disease and distroy AYER'S SARSAPARILLA expels these humors from the blood. When they are gone, the disorders they produce disappear, such as Ulceration of the Liver, Stomach, Kidneys, Lungs, Eruptions and Eruptive diseases of the Skin, St. Anthony's Fire, Rose or Erysipelas, Pimples, Pustules, Blotches, Boils, Tumors, Tetter and Salt Rheum, Scald Head, Ring-worm, Ulcers and Sores, Rheumatism, Neuralgia, Pain in the Bones, Side and Head, Female Weakness, Sterility Leucorrhœa arising from internal ulceration and uterine diseases, Dropsy, Dyspepsia, Emaciation and General Debility.
